We grow our own grains, including corn, wheat, rye, and barley to craft a wide range of award-winning spirits, like Bourbon, Rye Whiskey, Vodka, and Gin. Why "Eight Oaks"? Our Founder & CEO, Chad's grandfather, started the tradition of signing off letters to his family with a figure eight, which represents the eight letters in "I Love You". Today we use the "8" as a sign of love and admiration for our friends and family. The Oak Tree is a symbol of strength, nature, and longevity and provides the wood for barrels that distillers have used for centuries to age their spirits. The combination of these two important things resulted in Eight Oaks, and we seek to honor these legacies in what we do every day.
